Art Unit: 2816

1. Applicant's amendment filed on 3/01/06 has been received and entered in the case.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1, 4, 6 and 8-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Weiberneit et al.
See paragraph five of the previous office action mailed on 12/1/05 for the details of this rejection.
4. Applicant's arguments filed on 3/1/06 have been fully considered but they are not persuasive.

The argument that the reference does not meet the limitation "providing both the first and second input signals at a predetermined one of the complementary logic states during the second clock state" is not persuasive. The signals applicant is referring to are input signals DATA and DATAB applied to latch 120 (shown in instant Fig. 2), which are merely the intended use of the applicant's invention and therefore cannot be relied upon to define over the prior art. Moreover, applicant should note that

Art Unit: 2816

the limitation of providing these signals at the same predetermined one of the complementary logic states (i.e., both high or both low at the same time) is actually admitted by applicant as prior art (see paragraph [0015] of the instant specification) and therefore, for this additional reason, cannot be relied upon to distinguish over the Weiberneit et al latch circuitry.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Note Fig. 12 of U.S. Patent No. 6,693,476 which is also seen to anticipate at least claim 1, as was pointed out in the previous office action.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened

Art Unit: 2816

statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

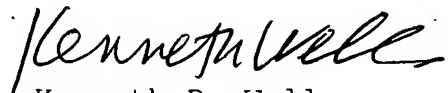

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth B. Wells whose telephone number is (571)272-1757. The examiner can normally be reached on Monday through Friday from 8:30am to 5:00pm.
